

The Daily New Mexican

By NEW MEXICAN PRINTING CO.

Subscription rates for the Daily New Mexican are as follows: For the State of New Mexico, \$2.00 per month, \$5.00 per quarter, \$15.00 per annum, in advance. For the United States, \$3.00 per month, \$7.50 per quarter, \$22.50 per annum, in advance. For foreign countries, \$4.00 per month, \$10.00 per quarter, \$30.00 per annum, in advance. Single copies, 10 cents. The paper is published daily, except on Sundays and public holidays. It is printed at the New Mexican Printing Co., 100 North First St., Santa Fe, N. M.

FRIDAY, MAY 6.

The territorial Republican platform on the silver question is good enough; it is good enough for all of us. Let us stand by it and support it.

Victory is in the air for the Republicans of New Mexico; with thorough organization and good work victory will be certain in November next.

The Republican candidate for congress and a Republican legislative assembly will be elected this year in New Mexico; this is official and absolutely correct.

Our Democratic friends are counting upon a split in the Republican party in Bernalillo county; the wish is father to the thought, but neither wish nor thought will be realized by them.

This editorial column of this journal contains editorial matter of interest to the people; padded essays upon subjects that do not interest the people of New Mexico find no place in this journal.

In the municipal elections in Indiana and Minnesota this present week the Republicans made heavy gains; and carried several Democratic strongholds; this is a Republican year all over this country.

Two suits for the recovery of the public funds in the possession of ex-Collector Frank Chavez, of Santa Fe county, must be pushed and that earnestly and vigorously. This is a pointer for District R. E. Twitchell.

Votes elect a ticket and the Republicans of New Mexico can get a large majority of the votes of New Mexico at the coming election by good, hard, earnest and efficient work; and the sooner this work commences the more votes will they get.

General Harrison is a moderate man and a conservative man; he may not get all the delegates to the Minneapolis convention on the first ballot, but he will get enough to nominate him and that will be satisfactory; no use worrying about that.

Two good people of Rio Arriba county must stop this thing of White Cap outrages in their county and they must stop it in short order; let the county of San Miguel have the distinction of being a White Cap county with a White Cap county government.

The Democracy of San Miguel county seems to be principally composed of ex-Chief Justice E. V. Long; at least his hangers on appear among the delegates to the Democratic territorial convention in goodly numbers. The Republicans can stand this and that very nicely.

The Republicans of Alabama have just held two state conventions; while this will not in any way affect the November elections, still it is very gratifying to know that there are enough Republicans in that state to hold two conventions. At this rate they may increase in twenty years and make quite a respectable showing.

The revenue system of New Mexico needs overhauling; during the past fiscal year on an average but 65 per cent of the taxes levied were collected and turned into the territorial treasury; this, with the collector's commission of 5 per cent, would make a total of collections of about 70 per cent. The percentage is not large enough.

A recent cable dispatch from London indicates that things are not quite as lovely for the English workmen as they might be; the dispatch says: "At a meeting of the unemployed in London, the red flag of Anarchy was boldly displayed; alongside of the blood-red emblem was a black flag with the inscription: 'We demand the right to work'."

If there is an exhibit to be made from Santa Fe county at Chicago it can only be done by private enterprise and subscription; the county as a municipality is in no shape to appropriate money for such a purpose; hence, it will be well to open a subscription list for the purpose.

named, and the New Mexican is proud that Mr. W. T. Threlkeld, president of the New Mexican Printing Co., is the head of the list.

It is a pretty good sign of the times, that there is a good deal in the old saying: "procrastination is the thief of time." There is a good deal of procrastination in the action of the board of trustees of the New Mexican in the matter of the new building. Reports alone, your honor, will not do; action is wanted and the speedy opening of the asylum is demanded.

A HEALTHY SIGN.

It is a pretty good sign of the times, that there is a good deal in the old saying: "procrastination is the thief of time." There is a good deal of procrastination in the action of the board of trustees of the New Mexican in the matter of the new building. Reports alone, your honor, will not do; action is wanted and the speedy opening of the asylum is demanded.

As a factor in this growth the railroads are entitled to a much larger share of credit than is accorded them by the average man. In the single item of annihilating time, which is now the chief basis of competition, they are working out benefits for the Rocky mountain region that are of untold value. Twenty years ago it struck terror to the hearts of most men to suggest a trip from the Mississippi valley to the Rockies. Ten years ago there was some improvement in the situation, but not much. Five years ago even, most of the people who came west brought with them visions of wild Apaches and bowie-knives cowboys. To-day there are ten people traveling over the western lines where one made the trip five years ago, and the best and safest train service in the world is given them. The cutting down of fares to reasonable prices and the competition in time now going on must surely prove of great value to the people of the Rocky mountain region.

PRESS COMMENTS.

Fatal to the Democracy.

The truth of the situation has broken upon them with sufficient force to convince some of Mr. Cleveland's closest friends that it would be fatal both to him and to the Democratic party to renominate him. They are now casting about for somebody to wear the Cleveland mantle. —Fort Worth Gazette.

Yankee Supremacy.

The fact that foreign spies are seeking to discover the methods by which the armor-plates for our warships are made in American factories is the best evidence that this country holds the lead in the manufacture and yet, ten years ago, the British press in the United States denounced the plan of making armor at home for our warships.—Indianapolis Journal.

The Greatest Care Should Certainly Be Exercised.

In view of the fact that it is not an uncommon circumstance for 1,000 Italians to land on these shores in a single day, and taking into consideration the circumstance that the state department has just paid \$25,000 for the lives of three Italians, being at the rate of \$8,333 1/3 per Italian, it is suggested that the utmost care and discretion should be used in lynching late subjects of His Majesty, the King of Italy.—Kansas City Star.

The Tin-plate Trade.

Owing partially to a change of ownership and to depression in the South Wales tin-plate trade, the Landore Tin Plate company, Swansea, have stopped 500 to 600 workpeople during the past week. The Landore tin-plate works is one of the oldest and largest works in South Wales, and much anxiety is expressed at the present stoppage. Large numbers of tin-plate workers have recently emigrated from South Wales to the United States, between thirty and forty leaving Morriston last week.—St. James, London, Gazette.

Hill's and Cleveland's Chances.

Even a surface view of the situation should convince the most skeptical that Hill himself, who is more reasonably certain of New York than any other candidate, available or unavailable, is more likely than any candidate to be elected without the vote of the empire state.—Mt. Vernon Signal, (Ky.)

Practical Reciprocity Results.

For the eight months ending March 1, 1891, the exports from this country to Cuba aggregated in value \$2,797,579. For the eight months ending March 1, 1892, under the operations of the new reciprocity treaty, the exports were increased to a valuation of \$4,065,168. The principal exports are sugar, tobacco, lumber and timber, salted and smoked meats, crude and refined petroleum and sewing machines. An increase of sales of these and some minor articles to Cuba, amounting to \$1,267,589, in eight months under reciprocity is a practical result of the great significance.—New York Press.

How the Iniquitous McKinley Bill Has Destroyed the American Silk Industry.

The silk manufacturing industry in the United States is rapidly becoming a thing of the past. In 1871 the product of establishments using silk partly or wholly in their fabrics was valued at \$13,000,000, and the number of persons employed were about 25,000.

In 1891 the product of American silk factories was over \$20,000,000, and the number of employees working at American rates of wages was 54,000.

—New York Press.

One Reason Why Rhode Island is Republican.

In 1880 the number of employees who were getting good wages in Rhode Island woolen factories was 10,288.

In 1890 the Rhode Island division of the army of woolen workers had increased to 17,439.

This is one reason why little Rhode voted for protection in April and why she will vote for it again in November.—New York Press.

The Court of Private Land Claims.

The land grant court is getting down to work in a way that is satisfactory, and there is a fair prospect that it will dispose of all the land grant questions which may come before it within the five years allotted for its existence. The recent decision in the Albuquerque grant case confirming that grant in an accord with common sense. There was no documentary evidence showing that the grant had ever actually been made, but there was abundant evidence to the effect that transactions had occurred many years ago which probably would not have occurred if there had been no grant. This decision will be a precedent for the determination of cases of a similar character. It seems that the court does not intend to let mere technicalities stand in the way of its doing justice.—Denver Republican.

The Horrible Work of the McKinley Bill.

The Associated Press states that the owners of a number of the largest tin-plate factories in Wales intend to transfer their manufacturing business to the United States. This result would have been accomplished a few months after the passage of the McKinley act if the elections of 1890 had not encouraged foreign manufacturers to hope for the speedy abandonment of the protection system. When the act was passed there were hundreds of representatives of European capital and industry in the United States looking about for sites for new factories and making arrangements for the transfer of machinery and business to American soil. An overwhelming Republican defeat interrupted the movement. The investors went back to Europe convinced that the McKinley law would soon be repealed. A Republican victory this year will bring them back, and involve an immense development of industrial enterprise.—New York Tribune.

Free Mexican Lead Ores.

A fight will be made in congress at this session to admit Mexican silver-lead ores free of duty. There is very little doubt that the house will pass a bill to that effect and that the real fight will occur in the senate. Such a bill should not be passed, for it would place the lead miners of the United States in competition with the cheap labor of Mexico. At one time there was a strong pressure brought to bear for the free admission of such ore. It was chiefly in the interest of the owners of lead mines in Mexico and the owners of smelters in El Paso. Within a recent time the situation has changed. There are now smelters in Mexico and the Mexican government is not in favor of the shipment of silver-lead ores out of that country. The tariff on Mexican ore has stimulated the mining interests of the southern part of New Mexico, and many miners are employed there who would have to be discharged if the mines being shut down.—If Mexican silver-lead ores were admitted free of duty.—Denver Republican.

BURLINGTON'S NEW FAST TRAIN.

Only 28 Hours—Denver to Chicago. Under its new summer schedule the Burlington route is enabled to offer increased facilities in train service and fast time from Denver eastward. Train No. 6, "The Chicago Special," leaves Denver daily at 9:30 a. m., reaching Omaha at 11:40 the next evening and Chicago at 2:15 the next afternoon, making the run—Denver to Chicago—in 28 hours and only one night on the road. This train also has through Pullman sleepers for Kansas City and St. Louis, making quicker time than any other line.

Special Rates.

To those wishing to attend the Gentlemen's Driving association to be held at Albuquerque, N. M., May 5 to 7 inclusive, the A. T. & S. F. Ry. will sell excursion tickets to Albuquerque and return at the rate of one and one-fourth lowest first-class fare (\$4.35) for the round trip. Tickets will be sold May 4, 5, 6, inclusive, limited for return to and including May 8, 1892.

Patronize the New Mexican for all sorts of fine and cheap job printing; largest and best printing and book binding establishment in the territory.

The latest and best forms of mortgage deeds and chattel mortgages are for sale at the New Mexican Printing office.

WHY IS THE W. L. DOUGLAS \$3 SHOE CENTRE FOR THE BEST SHOE IN THE WORLD FOR THE MONEY?

It is a comfortable shoe, with no laces or wax thread to hurt the feet of the best fine foot, stylish and easy, and because we make more shoes of this grade than any other manufacturer, we can sell them at a lower price than any other. The best shoe ever offered for \$3.00 equals French made shoes which cost from \$4.00 to \$5.00. \$4.00 Hand-sewed Welt shoe, the calf, style, and durable. \$5.00 Hand-sewed Welt shoe, the calf, style, and durable. \$6.00 Hand-sewed Welt shoe, the calf, style, and durable. \$7.00 Hand-sewed Welt shoe, the calf, style, and durable. \$8.00 Hand-sewed Welt shoe, the calf, style, and durable.
